THIS IS A PREPAID SERVICE. NON-REFUNDABLE.

PREPAYING ALSO INSURES THE SCHEDULED DAY WE AGREE UPON

* **Beaded covers** can be difficult because of shrinkage of either the bead itself, the coping being worn with age, or the vinyl of the cover shrinking from age and or lack of moisture when stored. Please advise us if liner lock is required to secure the cover's resistance to pulling out.

*Once service has been paid for it is locked in for the date requested and **no refunds** will be issued. If a date change is needed we will do our best to accommodate.

*** **Note: we are not responsible for any pre-existing issue with either plumbing, equipment or structure of your pool. Also make sure your automatic timer is bypassed at time of closing so the pump does not come on after closing.*****

Please Note: Excessive Leaf Loads will have an extra charge applied once assessed.
